

Organization Overview

Creativity. Bold Vision. Focus.

The Young Pipeliners Association of Canada (YPAC) is a professional group for early-career individuals in the pipeline industry. Pipelines are an integral part of Canada's energy future, and the Young Pipeliners is committed to building the next generation of leaders for the industry. We want to shape the future of the pipeline industry so that it can attract and retain top talent. We do this by enabling two-way dialogue between young pipeliners and key stakeholders in government, industry, and academia on critical topics: Climate Change, Indigenous Reconciliation, Innovation, and Diversity & Inclusion. Guided by our values of creativity, bold vision, and focus, we are catalyzing change.

Young Pipeliners' Vision & Missions

Young Pipeliners is **building the next generation of pipeline industry leaders**:

- **Network:** Providing a network of peers to reach out to when you need support, connection, and inspiration
- **Knowledge:** Delivering knowledge to members and facilitating the stewardship of the pipeline industry
- **Opportunities:** Enabling our members to have access to opportunities for development; both personal and professional
- **Impact:** Shaping the industry so that it attracts and retains high potential young professionals and clearly articulating and leading our bold vision of the future
